TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Plaistow in the County of Rockingham in said state, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Plaistow on Tuesday, the Eleventh day of March, next at nine of the clock in the forenoon, to act on the following articles:

Article 1. To choose all necessary Town Officers for the year ensuing.

Article 2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

Article 3. To see if the Town will vote to accept the recommendation of the Town Auditors, that an inventory be made on April 1, 1952 of all Town equipment and supplies not otherwise housed or kept on Town owned property and that a like inventory be made on December 31, 1952 and at the end of each fiscal year thereafter. These inventories to be turned over to the Town Auditors for checking within thirty days after date of inventory. Each inventory shall show the name of the article, date of purchase, cost, quantity, and location of article at the time the inventory is taken.

Article 4. To see if the Town will vote to raise and appropriate the sum of \$100 for the installation and maintenance of two street lights on Massasoit Boulevard. By petition, Eugene Proulx, and others.

Article 5. To see if the Town will vote to raise and appropriate the sum of \$100 for the installation and maintenance of two street lights on Walton Road between North Main Street and the residence of Raymond Wildes. By petition, Walter Lane and others.

Article 6 To see if the Town will vote to raise and appropriate the sum of \$50. for the installation and main-

tenance of one street light on Danville Road by residence of Edward Walsh.

Article 7. To see if the Town will vote to accept the following streets; May Ray Avenue, Duston Avenue, Rose Avenue, Railroad Avenue, Chandler Avenue, Cheney Lane, Farrington Avenue and Chadwick Street.

Article 8. To see if the Town will vote to accept Rose Avenue, By petition.

Article 9. To see if the Town will vote to raise and appropriate the sum of \$300 for the purchase of a lawn-mower for the park.

Article 10. To see if the Town will vote to raise and appropriate the sum of \$2,500 for the purchase of a new chassis for the tank truck.

Article 11. To see if the Town will vote to raise and appropriate the sum of \$3,500 for collection of garbage and rubbish. By petition.

Article 12. To see what action the Town will take in regard to the following Trust Funds:

Sadie Brickett Croy Fund	\$200.00
Carl G. Davis Fund	\$200.00

Article 13. To see if the Town will authorize the selectmen to borrow money in anticipation of taxes.

Article 14. "Shall the provisions of Chapter 171-A of the Revised Laws relative to playing games of beano be adopted in this city or town."

Article 15. To see if the Town will vote to accept as submitted the reports of Agents, Auditors, and other officers and committees heretofore appointed.

Given under our hands and seal, this twenty-second day of February, in the year of our Lord nineteen hundred and fifty-two.

JOHN A. PALMER

J. RUSSELL COLCORD

LESLIE LEATHE

Selectmen of Plaistow

A true Copy of Warrant—Attest:

JOHN A. PALMER

J. RUSSELL COLCORD

LESLIE LEATHE

Selectmen of Plaistow

Plaistow, N. H., February 25, 1952

We hereby certify that we gave notice to the inhabitants within named, to meet at the time and place and for the purpose within mentioned, by posting up an attached copy of the within Warrant at the place of meeting within named, and a like attached copy at Plaistow Post-Office and Westville Post-Office, being a public place in said Town, on the 25th day of February, 1952.

JOHN A. PALMER

New Borrowers	103
Library Open	120 regular days

Our Library continues to be a very active one. The town and school are both growing and in turn the demands on our Library are greater. The use of books is increased and more are needed to replace worn ones and to provide for the increased number of readers. During the past year we have served adults and children from all parts of the Town. We have provided pleasure reading, educational material and helped a great many with reference questions and statistical work. The Reader's Guide has proven very worthwhile as an index to magazine Articles.

The Elementary school teachers and children are very interested in the Library and in reading. The Library and school help each other throughout the year. During Book Week this past year we entertained all of the teachers and pupils of Pollard School with a full length movie of "The Five Little Peppers". Selections of books go from the Library to each grade at school for extra reading and reference work.

We have purchased many new books and have had the use of many non-fiction books, that we could not have afforded to buy, by borrowing from our State Library at Concord.

The Monday evening hours are very successful, especially for students.

We sincerely hope that you will use Your Library.

Respectfully submitted,

RUTH C. COOK, Librarian

In order to release Mrs. Cook to a larger opportunity as a Teacher in the Pollard School, the trustees, in September, appointed Mrs. Helen Colcord as Associate Librarian and Miss Eleanor Linscott as Librarian's Assistant. A word of appreciation is due Mrs. Cook for the development of the library during her nine years of service. Mrs. Colcord is carrying on the work and is very interested in the development of library service.

REPORT OF PLAISTOW BOARD OF HEALTH

During the past year there have been numerous complaints to the Plaistow Board of Health. For the most part these comprised sewage disposal and water supply problems, although there were many incidental nuisances and public health hazards. Written complaints, only, were considered, in keeping with the policy conducted by the Health Board. These were investigated and handled according to the regulations set forth in the revised laws. In all cases this year, the Board received complete cooperation from all individuals concerned.

Weekly reports concerning communicable diseases have been sent to the State Board of Health, in accordance with the revised laws.

There has been considerable building in Plaistow, with a corresponding influx of new population, and the Board would like to re-emphasize the growing need of an independent water and sewage disposal system.

Respectfully submitted,

Plaistow Board of Health,

ROBERT W. TOWER, M.D., Chairman

JOHN PALMER

J. RUSSELL COLCORD

FRANK LEATHE

REPORT OF THE PLAISTOW FIRE DEPARTMENT

As chief of the Plaistow Fire Department, I submit the following report:

Twenty-eight alarms have been answered which is the smallest number answered in any year for twenty years.

Four of these alarms were building fires with an insurance loss of less than one hundred dollars.

The rest of the alarms were chimney and grass fires.

We have assisted in two out-of-town fires

Outside Help was called on one occasion as a precautionary measure.

The Association purchased an inhalator and resuscitator, paying for two-thirds of the cost, which they presented to the department.

I would like to thank the citizens for their cooperation with the department for their carefulness in regard to out door burning,

Respectfully submitted,

JOHN A. PALMER,

Fire Chief

ANNUAL REPORT
of the
SCHOOL BOARD
of the
TOWN OF PLAISTOW
State of New Hampshire

SCHOOL WARRANT
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the town of Plaistow qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the eighth day of March 1952, at six o'clock in the afternoon, to act upon the following subjects:

Article I. To choose a Moderator for the coming year.

Article II. To choose a Clerk for the ensuing year.

Article III. To choose a Member of the School Board for the ensuing three years.

Article IV. To choose a Treasurer for the ensuing year.

Article V. To determine and appoint the salaries of the School Board and Truant Officer and fix the compensation of any other officers or agent of the district.

Article VI. To hear the reports of Agents, Auditors, Committees or Officers chosen, and pass any vote relating thereto.

Article VII. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.

Article VIII. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen, the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Article IX. To see if the District will vote to authorize the School Board to issue bonds or notes in an amount not to exceed eighty-five thousand dollars(\$85,000)

payable from funds to be raised by taxation, for the purpose of financing the cost of constructing and equipping an addition to the Pollard School, and to authorize the School Board to execute any and all contracts or agreements necessary and proper or advisable in connection with the construction and equipping of an addition to the Pollard School.

Article X. To see what sum of money the district will vote to raise and appropriate to provide, equip and operate an additional classroom for use in September 1952.

Article XI. To see if the District will authorize the School Board to make application for and to receive, in the name of the district, such advances grants-in-aid or other funds for educational purposes, as may now or hereafter be forthcoming from Federal or State or local or private Agencies.

Article XII. By petition, to see if the District will vote to raise and appropriate \$200.00 to transport the children on Pollard Road from their homes to the school during the 1952-53 school year.

Article XIII. By petition, to appropriate \$200.00 to transport by school bus children who live on Newton Road (Route 108) to and from their homes to the school during the school years of 1952-53, 1953-54, 1954-55.

Article XIV. To transact any further business that may legally come before the meeting.

Given under our hands at said Plaistow this eighteenth day of February, 1952.

IRVING S. GILMAN

PHILIP G. McKEEN

JOHN W. COLBY

School Board

The Polls will be open to vote for District Officers from 6:00 to 8 p. m. The other articles of the warrant will be taken up at eight o'clock.

BUDGET WORK SHEET

This is a presentation of the budget work sheet which your School Board has been operating under during 1950-51. and their estimated expenses for the year 1951-52. It must be taken into consideration that monies appropriated in the month of March, to be used the following year, do not necessarily correspond in individual items, because of the impossibility of projecting the rising price indexes twelve months hence.

	Expended 1950-51	Appropriated 1951-52	Proposed 1952-53
ADMINISTRATION			
Salaries of District Officers	\$ 330.00	\$ 330.00	\$ 330.00

REPORT OF THE SUPERINTENDENT OF SCHOOLS

"America's tomorrow may depend upon what they learn today—the active interest of all citizens is the foundation of any good school system."

To the School Board and Citizens of Plaistow:

I am happy to submit my second annual report as Superintendent of your school. This report is made under the headings listed below, and is followed by reports of the Principal, the Music and Art Supervisors, and the School Nurse:

1. Enrollment and School Census
2. Personnel
 - A. Personnel needs
3. The Curriculum and Special Services
 - A. Testing
 - B. Clinics
4. School Buildings
 - A. Additions needed
5. Finances

I. ENROLLMENT AND SCHOOL CENSUS

As will be noted by the following census and enrollment tabulations, we will have 23 more children coming in to the first grade in September than will graduate in June from Grade 8. This will necessitate an additional classroom in September; according to projected enrollment figures based on the 1951 school census, by 1955-56 a total of four additional classrooms will be needed. These figures do not allow for possible increases due to new families moving into town. The total population in Plaistow has increased over 47 percent in the last ten years, and is still on an upward trend, so it is logical to assume that additional increases will be created by new families coming in.

II. PERSONNEL

Plaistow children are fortunate to have a continuity in the teaching personnel since the last year. It is not unusual during these years of teacher shortages to have large "turn-overs" from year to year in the smaller districts. The only replacements needed for the current year were in the positions left vacant by the resignation of

SEPTEMBER 1951 SCHOOL AVERAGE MEMBERSHIP CENSUS: IN PLAISTOW

Number of children from birth to and including 16 years of age during the period from 1909 to 1951

1954-55	50	45	58	37	37	46	38	33	344
1955-56	55	50	45	58	37	37	46	38	366

* Projected for the years starting with 1952-53.

For comparative purposes in the town report there is a table showing "total registration", but this should not be compared with the above table, as this is the registration as of September and would be less than total registration. Projected figures do not allow for possible increase due to new families moving into town.

Dorothy Stearns and of Principal Arthur Enman at the end of the 1950-51 school year. To replace Miss Stearns in the combined Grade 2 and 3 room, the School Board elected Ruth Cook of Plaistow. Mrs. Cook has had previous teaching experience in the Pollard School and had been especially close to the school children during the past years in her excellent work as librarian in the Plaistow Public Library.

To replace Mr. Enman who resigned to continue his education and to secure a position allowing more time for administration, the Board selected Mr. Robert Dolph of Salem. Mr. Dolph is a graduate of New York State College for Teachers at Buffalo, New York, and has credit toward a Master's Degree at the University of New Hampshire. He has had teaching experience at Rollinsford, New Hampshire, Bourne, Massachusetts, and at Salem, New Hampshire.

A. Personnel Needs

In addition to another teacher to care for increased enrollment next year (see enrollment and school census), there should also be an additional teacher in the 7th and 8th grades. This would provide the following advantages.

- (1) Some non-teaching time for the Principal which would allow for more attention to the many administrative details of our 300 pupil school without leaving groups of children without a teacher for indefinite periods of time.
- (2) More time for instruction in home economics and manual training for upper grade pupils.
- (3) Some supervision and instruction in much needed physical education activity with several of the upper grades.

The principal of a 300-pupil elementary school should have at least one-half of his time for the administration of his school.

Louis Heil continues his excellent work as school custodian, and as a special police officer is always attentive to his duties involved with regulating motor vehicle traffic past the school during the noon and after-school periods when the children are dismissed.

The following quote from correspondence dated January 25, 1952, to New Hampshire superintendents and school board members from our Commissioner of Education states that,

"The State Board of Education is greatly concerned about the most crucial problem of public education today—that of providing our children with well qualified teachers. Although our State Teachers Colleges will graduate this June the largest number of elementary teachers in years, the great nation-wide teacher shortage plus an increase of some 3,200 elementary pupils in September, 1952, will place our New Hampshire Schools in the most critical situation since the war.

"One solution to the problem is to reduce in this state the large teacher turnover which is approximately 10 percent. In a recent study our superintendents estimated that New Hampshire loses annually to neighboring states some 57 elementary teachers and 50 high school teachers. This is a terrific loss to a state as small as New Hampshire.

"Two of the best ways to halt this trend and to set about holding our good teachers in New Hampshire, as well as recruiting young people to enter the profession, are to pay adequate salaries based upon a definitely established salary schedule and to provide satisfactory conditions of employment. Therefore, it is suggested that local school boards act at once to develop a salary schedule or guide for their own school system. Teachers, superintendent, principals, and representatives from the public should be invited to participate in the process. The State Department of Education will be glad to assist also. Local school boards which have already developed and adopted salary schedules can testify to their value and improved morale-building results."

III. THE CURRICULUM AND SPECIAL SERVICES

Our teachers continue to stress the fundamentals and are alert to take advantage of every possible opportunity of broadening the curriculum in the social and natural sciences. Instruction in vocal music and art and supervised playground activity continue to be a part of the total curriculum.

We are attempting to play a significant part in the advancement in physical welfare. The School begins in early years to lay the basis for good habits of sleep, eating, and exercise. Coordination of health services in home, community, and school, from birth to graduation is the first step toward a sound health of our children.

As a result of the First Aid Course for teachers which

was sponsored during the fall months by the Haverhill Chapter of the American Red Cross, and taught by Mr. Carl Raders of Plaistow, all children in Plaistow are now receiving regular and well-planned instruction in first aid from their respective teachers.

Through the efforts of the present 8th grade pupils, and the cooperation of the citizens of Plaistow, a new Webster's Unabridged dictionary was donated to the school last spring by that group. From the regular budget allowances, other reference books, some science equipment, minor additions in tools for the shop, and several sets of new textbooks including spellers for grades 4, 5, 6, and 7 are being provided. Plaistow children now have the advantage of having a reasonable number of up-to-date books in nearly all areas; a continuation of the allowances per pupil which have been allowed in recent years for books and scholars' supplies, will allow for ample materials to work with.

A. TESTING

The testing program which is being continued in the Pollard School makes it possible for each teacher to know the relative mental ability and achievement of each of her pupils. It is only through a knowledge of the mental ability of each pupil that a teacher can diagnose his difficulties and thereby teach with the greatest efficiency.

B. CLINICS

Several elementary school children through the excellent cooperation of their parents have been taken to the Boston University Educational Clinic for expert diagnosis of reading difficulties. Through the efforts of our school nurse, Mrs. Soule, children have been taken to psychiatric and mental hygiene clinics when individual cases have warranted it; such specialized services are necessary in order that regular teachers may work with all pupils to the greatest effectiveness.

SCHOOL BUILDINGS

The School Board has been alert to the many necessary minor repairs during the past year, and has made several important improvements in the appearance and usability of the building since the last annual report. Some of the accomplishments were: repainting of the interior of the 8th grade room; installation of an electric hot water heater; the boys and girls in the school have

cooperated in improving the appearance of the basement areas by painting under the supervision of Principal Dolph.

A. Additions Needed

Since the March, 1951 annual School District Meeting, the Board has been spending much time and energy in making further studies and more complete plans for additions to the school. After a refusal on **June 28, 1951** by the Housing and Home Finance Agency of the Community Facilities Service of Federal funds for Advance Planning for an addition, the original application was finally approved as of October 5, 1951, through the additional assistance of Senator Bridges. The School Board then contracted with the Architectural concern of Hershey Associates of Durham, New Hampshire to complete the preliminary plans and drawings that had been initiated during the 1950-51 school year.

The proposed additional four rooms (including a new well, renewal and relocation of the furnace and toilet facilities from the basement of the present building) and development of the total present basement area into facilities for shop, home economics, and school lunch room, would cost in the vicinity of \$85,000.

As was noted in the remarks under the heading **School Enrollment and School Census**, it may be clearly noted that, according to the present numbers of children in the various age groups, at least 4 additional classrooms will be needed by 1955. These figures have made very conservative allowances for the number of children who may move into Plaistow during the next five years. With an estimated 58 children coming into the first grade next September, it will be necessary to equip a temporary classroom for that group to serve until the proposed addition can be used.

FINANCES

Since the entrance of this country into World War II, the amount of money expended each year for public education throughout the country has shown substantial increase over the preceding year. This general trend has been true also in our own town. It should be noted, however, that the actual purchasing power of expenditures has not shown corresponding increases.

Costs of materials and commercial services continue

to increase with a resultant effect on our school costs.

As a result of the last State Legislative session, Plaistow is now receiving (for the 1951-52 and the 1952-53 school years) \$12,994.26 school state aid money, as compared with \$2,006.27 received during the previous two-year period.

During the past year we have profited by consultant services provided by our various state departments. From the State Department of Education the following people have visited in this area at our invitation on various subjects according to their respective fields:

Dr. Hilton C. Buley, Commissioner of Education (Supervisory Union Meeting at Hampstead on December 11, 1951.)

Dr. Harold Hyde, Chief, Division of Educational Research (Area meeting of School Board members and others at Hampstead on January 29, 1951 for a general discussion of state aid to schools.)

Dr. Alice Baumgarner, Director, Art Education.

Miss Madeleine E. Bertell, Director, Elementary School Services.

Miss Annette Eveleth, Director of Health Services.

Miss Ruth Cutter, Director School Lunches.

Mr. Howard E. Swain, Director, Trade and Industrial Education.

Miss Verna Payson, Director Home Economics Education.

Mr. Curtis R. Bresnahan, Director, Child Welfare Services.

Mr. Paul E. Farnum, Chief, Division of Administrative Services.

Mr. Earl H. Little, Director, Agricultural Education and Acting Director, Distributive Education.

Mr. William F. Glavin, Supervisor, Vocational Rehabilitation.

We have had consultation and visits with representatives of the office of the New Hampshire State Fire Marshall and of the State Board of Health; in each case, every school in the Supervisory Union has been visited by these representatives accompanied by the superintendent. Reports have listed various suggested improvements which the various School Boards are correcting as finances will permit.

Children of today are 'Better'! It would be of interest to the critics of our present day schools to learn that Dr. William Durtin of Harvard University has recently made the following declaration in an editorial in the Boston Herald.

"The children today are not merely better than those of 20, 30 or 50 years ago. They are very greatly better. Over 275 controlled studies have been made yielding mathematically precise evidence. One of them in New York City was carried on for 6 years, involving 69 elementary schools and approximately 60,000 children. All the studies in the past 30 years have been made either by regular classroom teachers or with their collaboration Criticism of the three R's has been going on for several centuries, being accelerated in all periods of social crisis. The 'Boston Herald' commented editorially in 1894: 'It is really a rare thing to find young people at from 15 to 19 years of age who can write or spell out of the common, or prepare a composition correctly.' The late Commissioner Butterfield of New Hampshire compiled statements from school committee reports in 50 New England towns covering a period of 96 years. Each generation asserts positively that the schools do not do so well as they did 20 years ago'."

Education is a business enterprise; it is the biggest in America. It deals with a product which is closest to the hearts of the people and it has a responsibility equalled by no other business.

Your School Board, superintendent and teachers are always receptive to constructive suggestions for the betterment of the schools.

Your Parent Teacher Association has taken healthy progressive stands for improvements.

In conclusion, I again thank the School Board, school personnel, students, parents, and community organizations for their continued co-operation in making the work of our schools enjoyable and successful.

Respectfully submitted,

JONATHAN A. OSGOOD

The Table below indicates the total 1950 population* figures for the State, Rockingham County, Towns in Supervisory Union No. 55 and certain other Towns in Rockingham County.

** Towns Composing Supervisory Union Number 55.

*** Only two towns in Rockingham County showing more than 47% increase in population between 1940-1950.

REPORT OF THE PRINCIPAL

I have divided my report into 7 topics; Viewpoints of Education, Enrollment, Physical Education, Extra Curricular Activities, Hot Lunch, Pollard School Staff, Shop and Home Economics, and Recommendations.

1. Viewpoints of Education

"Education is a community Responsibility." The

school and community should not exist as separate unities, but: rather as a closely knit organization, if the needs of our youth are to be met and dealt with satisfactorily. The type of training both academic and practical that our young people receive should be such that the community, state and country will be assured of reaping the reward of having better citizens, to safeguard our future.

In order to achieve this in a highly specialized world we must equip our students with an education that will benefit them.

Some of our students need academic work to prepare them for high school and college, others need training in practical work such as shop and home economics. Future college students would also benefit from courses in shop and home economics. Our present shop and home economics program is far from meeting the needs of the boys and girls. This is due to inadequate space and lack of teachers and materials.

2. Enrollment

The school enrollment is now at the 286 mark and the school census indicates that we may expect at least 56 new pupils in next years' first grade. Next years estimated enrollment by grades is as follows:

Grade 1 — 58	Grade 6 — 35
Grade 2 — 37	Grade 7 — 38
Grade 3 — 33	Grade 8 — 30
Grade 4 — 46	
Grade 5 — 38	<hr/> 315

These grade enrollment figures serve to remind us that we have expanded as much as is possible in the present building. The hot lunch room is used for study groups and art work. The shop with the addition of a piano serves a dual role as a music room and manual training workshop.

3. Physical Education

This year the seventh and eighth grades enjoyed physical education twice a week as a regularly scheduled part of the curriculum. With the advent of cold weather, however, the plan had to be discontinued until spring. Schools that have access to a gymnasium continue their physical education program throughout the school year.

A. The boys were formed into teams for touch football and they played Hampstead twice. It is hoped

that we can also have a boys baseball team and a girls softball team next spring.

4. Extra Curricular Activities

A. Again this year the Treble Clef Choristers under the direction of Mrs. Louise Jackson and Mrs. Prudence Douglas have continued to please audiences. The Choristers are selected from grades 5, 6, 7 and 8.

B. A new group, The Baptist Church Junior Choir, comprised of pupils from grades 5, 6, 7 and 8 was formed under the direction of Mrs. Louise Jackson.

C. Hot lunch tickets are being sold by students of grades 5 and 8. Mrs. Louise Jackson is in charge of tickets and money for the hot lunch program.

D. Mrs. Helen Dilendik sponsors the Seventh Grade Art Club which holds regular meetings after school. The club members work on art projects to display in their room.

E. A new club, the 4H Arts and Crafts sponsored by the writer holds regular meetings after school to work on individual projects consisting of wood burning, soap carving, metal foil pictures, weaving and leather craft.

F. The 8th grade elected class officers and holds regular monthly evening meetings at which time a business meeting is held and followed by recreation and refreshments. The class pays weekly dues for the purpose of having a graduation trip to Boston in the spring.

G. The playground safety patrol was organized to reduce accidents on the playground. This group of 7th and 8th grade girls have proved to be very effective and their supervision and organization of games with the younger children is to be commended.

5. Hot Lunch

The P. T. A. is again assuming responsibility for the hot lunch program under the chairmanship of Mrs. Norman Roberts. The food is prepared by Mrs. Franklin Pineo and Mrs. Elmer Cornell who are assisted by a group of mothers. The lunch program was started in December of this school year and will continue through March; the type of lunch was changed from type "B" to type "A". The program qualifies for Federal Aid and the cost per pupil is 11¢ a day for food and 6¢ a day for milk making a total of 17¢ per day or 85¢ per week. The installation of a hot water tank has aided the hot lunch

committee in both preparing food and dish washing.

6. Pollard School Staff

The Superintendent's report gives the Pollard School Teacher's names and grade assignment so I will omit them, but I want to take this opportunity to express my sincere appreciation and say "Thank you" to the teachers. I have found them to be sincere and understanding in their work, and to them goes most of the credit for the good work being done.

I also feel that Mr. L. Heil is to be commended for his cooperation and untiring efforts in maintaining our building and providing the teachers with much help.

7. Shop and Home Economics

This year the boys of grades 7 and 8 painted the basement lavatories and the shop. They also repaired many chairs and installed 5 new vices on the benches in the shop. At the present time each boy is working on his own project. It is hoped that our limited facilities will be remedied so that we can offer a better shop problem in the future.

Our homemaking course aims toward the acquisition by each pupil of:

1. Wholesome attitudes toward self, home and family.
2. A working knowledge of processes carried on in the home and a willingness and desire to share in them.
3. Desirable food habits.
4. The necessary skills to enable one to repair clothes, make simple garments, and to prepare and serve simple foods.
5. Interest and mental skills in caring for younger children.
6. Interest in maintaining neat, attractive and comfortable homes.
7. Ideals of accuracy, carefulness and neatness.

These are a few of the things we did during the year.

The girls learned how to use the sewing machines, made sewing bags to hold their equipment, and aprons to use in their cooking classes.

The advanced group constructed dresses and sport clothes to exhibit at our "Fashion Show" which was held in May. A total of thirty parents and friends attended

the event. Refreshments were made and served by the girls.

Through our classes we try to help pupils create a broader and richer life in their individual homes as they exist at the present time.

8. Recommendations

A. I ask that the school board consider an additional teacher for the junior high (7 & 8) section so that the Principal may be relieved at least $\frac{1}{2}$ a day to properly attend to the ever increasing problems of administration, supervision, discipline, and public relations. Teaching a grade full-time is a responsibility that one can only attain successfully if there are not too many interruptions and time consuming distractions. This is not a criticism for the sake of criticizing, but, I hope, constructive criticism about a condition that needs attention. I don't feel that I am accomplishing my best in either teaching or administration and this is not because of inefficiency in not spending enough time on each but because of the demands of a full time supervising activities in the school.

If such a plan were put into effect it could benefit the school and community by:

1. First of all giving the 8th grade students the benefit of less interruptions and irregular lessons— which are a result of having to take their time for business that comes up and must be taken care of immediately whether it takes a minute or 10 minutes.

2. Providing time to do efficiently those things by which our school reflects itself.

3. Time to attend properly to discipline cases.

4. Allowing operation of a **good** shop program that could take in grades 6, 7, and 8.

5. Physical education program for all grades which is impossible at present— (physical condition of teachers, etc.)

6. Organized athletics for junior high.

7. Time for a better Home Economics program which could and should include grade 6.

8. Organization of social and craft, art clubs for grades 6, 7, and 8.

B. I ask that consideration be given to drinking fountains for lower grade rooms, and an extra one up-

stairs. At the present time the entire school must obtain drinks from two inadequate fountains.

C. The playground is in need of improvement as the large stone and rocks have caused many accidents to the younger children; also, on rainy days there are several deep puddles that last for days after the rain has stopped.

D. It would be wonderful to have hot water for the boys and girls to wash with in the lavatories.

E. The addition of a sink for the teacher's room which also serves as a first aid room, is a much needed improvement.

F. The school should be provided with a first aid stretcher for possible use in the school, on the playground and in the community.

Respectfully submitted,

ROBERT DOLPH,

Principal

REPORT OF THE ART SUPERVISOR

To Mr. Jonathan A. Osgood, Superintendent of Schools:

I hereby submit my annual report of the art activities and instruction in Plaistow.

The art experiences of the past five years have been a great source of both instruction and activities. A continuation of the fundamentals, and the creative work of the children was intergrated with their subjects. When the occasion presented itself units, murals, seasonal decorations and projects were completed.

This year, as in past years, the students' work was sent to the Director of Fine Arts in Concord, New Hampshire for their travel units. Some pictures were on exhibition at the Currier Art Gallery in Manchester, New Hampshire.

In cooperation with and sponsored by the P. T. A., Halloween pictures were painted on store and garage windows. Prizes were given to the best pictures.

Decorations for town hall were made by the eighth grade for their graduation.

A film, "The World of Color" was shown to all grades.

The introduction of simple crafts, as well as snow sculptures, completed this year's program.

In closing I wish to thank the teachers for their cooperation and interest.

Respectfully submitted,

DOROTHEA S. ROTH

REPORT OF THE MUSIC SUPERVISOR

To Mr. Jonathan A. Osgood, Superintendent of Schools:

I, herewith, submit my second annual report as music supervisor of the Pollard School, Plaistow, N. H.

The music program, this year, has followed the procedure as outlined in former reports; attaining as near as possible the goals of a well-rounded music program.

In addition to the regular classes, the Glee Club has again been organized and is progressing satisfactorily. Since many of the members graduated in June, it has taken some time to re-organize and select the voices needed for the various parts. However, rehearsals are beginning to show results and, I am sure, that the groups will be a great source of pride to all of us, as it was last year. The club's first public appearance was the school's Christmas program, December 20th. At this time, they led the school in singing Christmas carols and presented one number of their own. New books of varied choral works were purchased for the Glee Club at the beginning of the year. The book, consisting of twelve numbers has proved very popular with all members.

This year, many of the music classes are being taught in the work shop, as the piano has been moved down there. It serves very well, especially for Glee Club practice and special rehearsals.

In closing, I wish to thank all those who have made this a satisfactory and enjoyable year.

Respectfully submitted,

PRUDENCE DOUGLAS

REPORT OF THE SCHOOL NURSE

To Mr. Jonathan A. Osgood, Superintendent of Schools:

Complete medical examination was given to pupils in grades one, four, and eight by Dr. Tower, Plaistow. This is a new program and I am sure all pupils examined will benefit by this experience.

Notification of all defects found was sent home.

Routine visits were made to all class rooms to check on conditions and investigate the reasons for absenteeism. I made many home visits to discuss physical defects and other problems, and to obtain a better understanding of what the school through its health work is trying to teach and do for the child. Home visitations build up a feeling of mutual understanding, sympathy and friendliness by working together for the welfare of the child.

Pre-school round-up for children entering school in September was held in June. The home room teacher, Principal, and nurse-teacher were present to meet the parents and children. Health histories were taken at this registration.

In November the Tuberculosis Patch Test was given to pupils in grade eight and those having a positive reaction were x-rayed at Central School, Salem, New Hampshire by Mr. Eugent Alden, technician for New Hampshire Tuberculosis Association. 45 x-rays were taken in the Union, including pupils, parents and teachers. The x-rays were read by Dr. Robert Kerr, Manchester, executive director of the T. B. Association, and all were found to be essentially normal, or showed healed calcified glands.

The Health Education Program has been greatly augmented by the use of Audio-visual material obtained through the courtesy of the New Hampshire Board of Health. Films such as "Teeth Are To Keep," "It's Your Health," "Rodney," "Winkie The Watchman," were shown to give a background of clearly applied health information based on scientific knowledge so that the pupil might learn to take the responsibilities in regard to his own health behavior.

The added school population and additional services in the health program leave less time for adequate follow up work that many pupils greatly benefit by.

The nurse-teacher is no longer employed merely to administer first-aid or to see that sick children are transported home, she works intimately with the teachers in solving the problems of individual children. She is a close link between the class room and the home. She is often called upon to act as an interpreter of the school program in individual homes and to acquaint the school personnel with conditions in the home.

It is impossible to evaluate the many benefits derived from the school health program. The benefits of the program are often felt by the pupil throughout his whole life.

In conclusion I wish to express my appreciation for the fine cooperation of the School Committee, Mr. Osgood, parents, teachers, and local organizations. Without their interest and support, my work would have been quite futile.

Respectfully submitted,

JESSIE SOULE, R. N.

SCHOOL CALENDAR — 1951 - 1952

Teachers' Meeting	Tuesday, September 4th
Fall Term Begins	Wednesday, September 5th
Fall Term Closes	Friday, December 21st
Winter Term Begins	Wednesday, January 2nd
